# FOREX MARKET

The foreign exchange market, or currency market is a global decentralized or over-the-counter (OTC) market for the trading of currencies.

This market determines foreign exchange rates for every currency. It includes all aspects of buying, selling and exchanging currencies at current or determined prices. In terms of trading volume, it is by far the largest market in the world, followed by the credit market.

**\$7.5 TRILLION**

Is currently the daily average trading volume.

**14 %**

Increase of the average daily turnover on the forex market, compared to the daily volume of \$6.6 trillion in 2019.

# METATRADER 5

Is a professional multi-asset class platform for trading on Forex, stock and futures exchanges.

In comparison with the MetaTrader 4 trading platform MetaTrader 5 is more advanced version with broad functionality and capabilities for programmers and stock traders.

## MULTI-PLATFORM

You can trade anywhere where there is Internet, using the web platform or mobile app MetaTrader 5 for Android or iOS.

## ALGORITHMIC TRADING

With MQL5's you can craft precise trading robots for automated Forex trading, eliminating the need for constant supervision.

## INDIVIDUAL ACCESS

Every member gets his own Account, which he can access through any MT5 Terminal.

# WHAT IS HIGH-FREQUENCY TRADING (HFT)?

High-frequency trading (HFT) uses algorithms and extremely fast connections to make rapid trades, often in fractions of a second.

It frequently involves the use of proprietary tools and computer programs that analyze markets, identify trends, and execute trades for very short-term gains.

## KEY TAKEAWAYS

- | HFT is complex algorithmic trading in which large numbers of orders are executed within seconds.
- | It adds liquidity to the markets and eliminates small bid-ask spreads.
- | HFT is criticized for allowing large companies to gain an upper hand in trading.
